### To Whom It May Concern

Dr. Anoop Kumar Agarwal joined as Professor in the Department of Pharmacology, College of Medicine on 18th September 2011. During his tenure of more than 6 years at the University I have known Dr. Anoop Kumar Agarwal in my capacity as the Provost of the Gulf Medical University.

I have had multiple opportunities to evaluate his performance as part of the annual appraisal. He is first and foremost an outstanding teacher. The student evaluation of his teaching has been consistently excellent over the years in the many courses he taught across the undergraduate programs like the integrated organ system-based MBBS program; the traditional BPT program; and the credit-bearing programs, particularly DMD, Pharm D, and Masters in Toxicology offered by the university.

He has supervised the thesis work of many graduate students and conducted research studies that he presented at several international conferences. He has also completed a Graduate Diploma in Health Professional Education in 2014 to enhance his skills in teaching and assessment of student learning and contributed to various faculty development activities organized by the university.

As an individual he takes pride in excelling in any task given to him; he is always willing to take responsibility; his good interpersonal skills makes him easy to get along with among his mentors and peers; and make him approachable and popular among students. He has led many extramural student centered activities from time to time.

He was appointed as the Associate Dean of College of Graduate Studies in January 2016 and Chair of its College Council. In this capacity he managed the overall administration of all the Masters programs. He has been an active participant as a Member of the Academic Council of the Gulf Medical University and the various standing committees including the Curriculum, Research and Assessment Committees.

It gives me great pleasure to recommend Dr. Anoop Kumar Agarwal in his future endeavors commensurate with his qualifications and experience. He will truly be an asset to any institute he joins. I wish him all the best.
