

3.2.2

Response:

Our aim is to aid and encourage students with unique ideas to move forward and share their innovations with the world. Various events related to IPR, research and good ethics are organized to educate student on venturing their passion and safeguarding their intellectual property.

Various workshops and talks were organized on the themes of:

- Intellectual Property Rights
- Research Methodology
- Good Clinical Practice
- Research Grant writing
- Industry-Academia Collaborations
- Computer Networking workshop
- Talk on Plagiarism
- Fire safety training

To strengthen knowledge senior industry/health professionals are invited to share their rich experience with students & faculty. Faculties and students are encouraged to participate and attend such workshops in other institutes.

1. Research Methodology/IPR/Bioethics course

The institute has incorporated these courses as a neighbourhood of its curriculum to train young professionals, faculty and research scholars who are going to be ready to design and implement research projects that are relevant within the Indian context.

2. SPSS training

To foster the research mind-set for UG/PG/ students, the constituent units of Surendera group of institution conducts additional programs which incorporates a session on Research Methodology and sessions for SPSS software. Thus far 7 batches of 20 PG students each have completed the SPSS training.

3. Computer Networking workshop

This institute trains students on computer networking which may be a group of devices connected through a transmission medium like wires, cables, cloud etc. These devices are often computers, printers, scanners, Fax machines, etc. The aim of getting a network is to send and receive data stored in other devices over the network.

4. Talk on Plagiarism

Academic Integrity is that the foundation on which all of the academia stands. Increased incidence of compromised publication ethics and deteriorating academic integrity could also be a growing problem contaminating all domains of research. It's important to make sure the prevention of educational misconduct including plagiarism in academic writing among students, faculty, researcher, and staff. Responsible conduct of research and safeguarding ethics and academic integrity in scientific research is extremely crucial.

5. Sahaja Yoga Meditation

SDCRI conduct yoga classes for all UG/PG/ students, faculty and non-teaching staff. The institute has lush green gardens and recreational rooms to indulge into yoga. Yoga helps to fight stress, improves the system, flexibility, health, and overall personality.

6. Appropriate use of media and e- journals

Institution has set up an e-learning tab for student to quickly revise to through important topics; additionally they are provided with a plethora of international journal and e-books available on the institutional LMS.
