No.	Event Report
1.	Name & Level of events- Value Added Course Basic Biostatistics and Research Methodology 3 rd -5 th December 2022
2.	Background/Introduction – In a thesis, dissertation, academic journal article or other formal pieces of research, there are often details of how the researcher approached the study and the methods and techniques they used. If you're designing a research study, then it's helpful to understand what research methodology is and the selection of techniques and tools available to you. In this article, we explore what research methodology is, the types of research methodologies and the techniques and tools commonly used to collect and analyze data.
3.	Venue- Surendera Dental College & Research Institute, Sri Ganganagar

7.	Participants & Delegates- No of participants & delegates/ teams with their names Total no. of participants 11 Teaching staff & 27 1 st year Post Graduate students of SDC&RI
8.	Prize distribution etc.- Brief summary of the processing
9.	Valedictory Ceremony- Brief of proceedings including chief guest etc and who conducted it
10.	Highlights of the event- Brief about the main highlights of the event. Basic Biostatistics & Research methodology is a way of explaining how a researcher intends to carry out their research. It's a logical, systematic plan to resolve a research problem. A methodology details a researcher's approach to the research to ensure reliable, valid results that address their aims and objectives. It encompasses what data they're going to collect and where from, as well as how it's being collected and analyzed.
